

# “How To Build a Retirement Income in 90 Days or Less with Only 3 Hours Work a Day and a Small Budget”

**Part of the “I Know a Man... “ Series**

---

Welcome! I’m Ed Kirwan, an online marketer. I enjoy living a simple life in sunny southern Spain with my Danish wife, Chico the Japanese Sptiz, two indoor and 18 feral cats.

You can get an idea of how I fund my “Hygge Lifestyle” by going [here](#).

\* *Hygge is a Danish word encompassing cosy, enjoyable and comfortable.  
It's pronounced "whogly"... more or less 😊*

---

I know a man who built his retirement income from [doing just this...](#)

In this guide, I will show you how to make a retirement income and maximise the amount of cash you can earn as simply and as quickly as possible.

The way top marketers maximise profits is to create products and/or services then build an army of affiliates to do extra selling for you.

There is an easier way to get started and that is with affiliate marketing.

Affiliate marketing is when you promote another marketer's product or service and earn a commission when a sale is made.

**This training will teach you the income skills you need even if you don't know where to begin.**

At the beginning you start with just 1 product.

Now you need to choose and master one traffic method.

Pick whichever traffic method you feel comfortable with and that suits you the best. If you already have a favourite traffic method, use it. Any traffic method will work.

You can use any of the methods like Twitter, Facebook, YouTube, Instagram, LinkedIn, TikTok plus paid ads, solo ads, bot messaging and more. It all works.

So pick one of your products or an affiliate product and your **one traffic source** then start driving traffic to that product.

And once you start seeing sales, then and only then do you move on to the next traffic source.

**Don't try and drive traffic to more than one product at a time and don't move on to another traffic source until the traffic source you're working on is converting.**

**That's the most important part of this.**

If you try to do more than one product, or more than one traffic source at a time, before you start seeing results, you're going to spread yourself too thin and you won't see any results at all, and then you get frustrated and you won't want to do it anymore!

So choose one product, one traffic method and work on it until you start seeing sales, then and only then move on to the next traffic source.

The goal is to maximise profits with each and every one of your products. And you do that by scaling up your traffic.

And once you've got a handful of traffic sources feeding into one of your "retirement income" products, and it's making healthy profits, then you move on to your next product.

Again, you can pick from the plethora of affiliate products or better yet, you can create your own products. It's easier than you might imagine.

**The goal is to create as many profitable products as possible.**

Once you have several products, you're going to be able to turn a really healthy, potentially life changing profit each and every month that can continue on for years and years.

It can do so because each of your products is independent from each other.

So if you "lose" a product for some reason, then you still have other products producing income, so there's very little chance that you'll lose all your income.

**So to recap, you pick a solid and valuable affiliate product or create your own, pick a single traffic source, generate traffic and sales with that one traffic source.**

Then you can move on to the next product. Keep creating more and more profitable products, and keep growing your retirement income.

OK then.

**[Head over to the training and learn those income skills you need to succeed and then you will know where to start building a great income.](#)**

That's it for this guide. Thank you for reading it, let's talk sometime.

It would be great to hear from you, I'd love to see you succeed and avoid any nasty pitfalls on your journey.

Until then, I wish you well.

Ed Kinwan
